(a) a description of the real property subject to the solar easement and a description of the real property benefiting from the solar easement;

(b) a description of the vertical and horizontal angles, expressed in degrees and measured from the site of the solar energy system, at which the solar easement extends over the real property subject to the solar easement, or any other description which defines the three dimensional space, or the place and times of day in which an obstruction to direct sunlight is prohibited or limited;

(c) any terms or conditions under which the solar easement is granted or may be terminated;

(e) any other provisions necessary or desirable to execute the instrument.

(3) A solar easement may be enforced by injunction or proceedings in injunction or other civil action.
